

Date: January 28, 2008

TO: San Diego Boat Tours
Captain Dana Parks,
Captain WC Young,
Crew of "Ocean Spirit"

Laughter and love exuded from the 12 friends as they climbed aboard the ship. The air was clear and soon the moon would shine full in the sky above. The friends knew they were in for a delightful voyage at sea, on a spectacular vessel, "Ocean Spirit". As the scent of sage and wild incense blended with the salty air, the 12 friends gathered on the bow of the boat under the stars and full moon to join together in a guided imagery meditation by candle light. When the moon grows full, every 28 days, the tides and bodies of water on the planet are affected. Water is a magical element, representing healing, emotions, birth and creativity. To experience sacred time on the ocean can be a life changing experience.

We want to thank Captain Parks, Captain Young and the crew for being instrumental in manifesting this experience for so many. Captain Young put us all at ease from the time we boarded the vessel until the night came to an all too soon close. The enclosed deck of the boat was beautiful for those who wished to relax and view the captivating San Diego skyline or enjoy the feast that was set up. The more private galley table served as a comfortable place for others to share thoughts while enjoying a cup of tea by candle light. The large living room was comfortable and elegant, a perfect place to gather after the magical ceremony and celebration of life. The night was enchanting, the moon was full, the water was mysterious and the boat moving by the San Diego skyline was captivating. A truly magical evening.

Thank you so much for allowing us to share this healing evening with so many on your boat. We look forward to many more cruises aboard "Ocean Spirit".

Blessed Be

Sandy
