

Five Reasons You Should Book Charters with San Diego Boat Tours

- ✓ We specialize in chartering to small groups, not to a few hundred people. As such, we have experience with this size group and our prices are very competitive. It is **cheaper to charter a whole yacht for your group** with catering than it can be to take them out for a nice dinner and it is an experience that they will really remember.
- ✓ We have a variety of charters to select from. As well, a charter may be **completely customized for your party**. You charter the whole boat, so can do what you wish and go where you want – you can even anchor!
- ✓ We are docked mid way between downtown and the ocean, so have easy access to both locations. Even at the dock we have a view of downtown San Diego. Also, we have plenty of free parking.
- ✓ One call will do it all. When calling **you speak to the owner/captain**. He can take care of everything for you such as booking the charter, catering, special requirement etc and answer all your questions. We can even send special notices to your guests if you like.
- ✓ The **yacht is very comfortable** with both a main salon as well as a sunroom that can be completely enclosed to protect from weather. Also, the yacht has a large flybridge, so you can join the captain when he is piloting the boat.
